Autonomy, Mastery and Purpose in the Avalanche Patch

own 35 years as a climber, skier and avalanche professional, Kay explains why avalanche country demands a unique mindset of managing risk by consideration of the unknown as much as the known. He explores related topics, including: - The Siren Song of Culture - Intuition and Bias - what is the difference? - Optimism and Luck - do we roll the dice or calculate risk? - The Expert Illusion - Strategic Mindset Using the work of Ian McCammon, Gary Klein and the Nobel Prize winning Kahnemen, Kay shows how the avalanche problem is nearly perfectly designed to produce errors in judgement, yet still provide opportunity for solution. This is brought to life using case studies and adrenaline - pumping stories from fellow professionals and recreationists. He warns that his book may at times "demand a bit more of the reader than the average ski video," but if truly interested in surviving to ski another day, this book is for you.

More important, can two guys survive 192 consecutive hours together? Their expedition on and off the road includes visits to the solar-powered Google headquarters; the National Ethanol Council; the wind turbines of southwestern Minnesota; the National Renewable Energy Lab; a visit to one of the first houses to receive platinum certification for leadership in Energy and Environmental Design (LEED); an "eco-

Making Meaning Out of Mountains Mark C. J. Stoddart
2012 Mountains bear the imprint of human activity. Scars from logging and surface mining sit alongside national parks and ski lodges. Although the environmental effects of extractive industries are well known, skiing is more likely to bring to mind images of luxury, wealth, and health. Drawing on interviews, field observations, and media analysis, Stoddart reveals the multiple, often conflicting meanings attached to skiing by skiers, mass media, First Nations, industry leaders, and environmentalists in British Columbia. Stoddart challenges us to reflect on skiing's negative effects as he exposes how certain groups came to be

viewed as the "natural" inhabitants and legitimate managers of mountain environments.

New York Through the Lens
Vivienne Gucwa 2017-03-09
Street photographers will never tire of New York as a subject. It is the perfect setting for the genre, the world's most evocative cityscape, against which candid, memorable moments play themselves out every day. Nearly a decade ago, Vivienne Gucwa began walking the streets of the city with the only camera she could afford a sub-\$100 point-and-shoot and started taking pictures. Choosing a direction and going as far as her feet would take her, she noticed lines, forms and structures that had previously gone unnoticed but which resonated, embodying a sense of home. Having limited equipment forced her to learn about light, composition and colour, and her burgeoning talent won her blog millions of readers and wide recognition in the photographic community. New

groundbreaking deer, and the resulting introduction to an entire herd, Joe Hutto has been allowed unprecedented access and insight into the minds and behavior of this special animal. Spending every day embedded among the herd, he develops an uncanny connection with the deer, witnessing individual and group dynamics never before observed and recorded, unveiling just how much we have in common with these delicate beings. Each season brings joy as fawns are born, and heartache as hunters, predators, development, and a pollution all take their toll. The mule deer of the West are in trouble, and Hutto is their most fervent advocate. Touching the Wild is proof that we have so much to learn from wild animals about their world, ourselves, and the fragile planet we share. Full color photos throughout.

The Field Guide to the North American Teenager Ben Philippe 2019-01-08 William C. Morris YA Debut Award Winner! A hilarious YA contemporary realistic novel about a witty Black French Canadian teen who moves to Austin, Texas, and experiences the joys, clichés, and awkward humiliations of the American high school experience—including falling in love. Perfect for fans of Nicola Yoon, *When Dimple Met Rishi*, and John Green. Norris Kaplan is clever, cynical, and quite possibly too smart for his own good. A Black French Canadian, he knows from watching American sitcoms that those three things don't bode well when you are moving to Austin, Texas. Plunked into a new high school and sweating a ridiculous amount from the oppressive Texas heat, Norris finds himself cataloging everyone he meets: the Cheerleaders, the Jocks, the Loners, and even the Manic Pixie Dream Girl. Making a ton

of friends has never been a priority for him, and this way he can at least amuse himself until it's time to go back to Canada, where he belongs. Yet against all odds, those labels soon become actual people to Norris...like loner Liam, who makes it his mission to befriend Norris, or Madison the beta cheerleader, who is so nice that it has to be a trap. Not to mention Aarti the Manic Pixie Dream Girl, who might, in fact, be a real love interest in the making. But the night of the prom, Norris screws everything up royally. As he tries to pick up the pieces, he realizes it might be time to stop hiding behind his snarky opinions and start living his life—along with the people who have found their way into his heart.

[Be Kind, Be Calm, Be Safe](#) Dr. Bonnie Henry 2021-03-09 From the BC doctor who has become a household name for leading the response to the pandemic, a personal account of the first weeks of COVID, for readers of Sam Nutt's *Damned Nations* and James Maskayk's *Life on the Ground Floor*. Dr. Bonnie Henry has been called "one of the most effective public health figures in the world" by The New York Times. She has been called "a calming voice in a sea of coronavirus madness," and "our hero" in national newspapers. But in the waning

days of 2019, when the first rumours of a strange respiratory ailment in Wuhan, China began to trickle into her office in British Columbia, these accolades lay in a barely imaginable future. Only weeks later, the whole world would look back on the previous year with the kind of nostalgia usually reserved for the distant past. With a staggering suddenness, our livelihoods, our closest relationships, our habits and our homes had all been transformed. In a moment when half-truths threatened to drown out the truth, when recklessness all too often exposed those around us to very real danger, and when it was difficult to tell paranoia from healthy respect for an invisible threat, Dr. Henry's transparency, humility, and humanity became a beacon for millions of Canadians. And her trademark enjoinder to be kind, be calm, and be safe became words for us all to live by. Coincidentally, Dr. Henry's sister, Lynn, arrived in BC for a long-planned visit on March 12, just as the virus revealed itself

as a pandemic. For the four ensuing weeks, Lynn had rare insight into the whirlwind of Bonnie's daily life, with its moments of agony and gravity as well as its occasional episodes of levity and grace. Both a global story and a family story, *Be Kind, Be Calm, Be Safe* combines Lynn's observations and knowledge of Bonnie's personal and professional background with Bonnie's recollections of how and why decisions were made, to tell in a vivid way the dramatic tale of the four weeks that changed all our lives. *Be Kind, Be Calm, Be Safe* is about communication, leadership, and public trust; about the balance between politics and policy; and, at heart, about what and who we value, as individuals and a society. The authors' advance from the publisher has been donated to charities with a focus on alleviating communities hit particularly hard by the pandemic: True North Aid with its Covid-19 response in Northern Indigenous communities, and First Book Canada, with its

focus on reading and literacy for underserved, marginalized youth.

and Management Peter Mason 2012-08-06 Tourism Impacts, Planning and Management is a unique text, which links these three key areas of tourism: impacts, planning and management. Tourism impacts are multi-faceted and therefore are difficult to plan for and manage. This book looks at all the key players involved - be they tourists, host communities or industry members - and considers a number of approaches and techniques for managing tourism successfully. Divided into four parts, this text discusses: * The growth,

development and impacts of tourism * Tourism planning and management: concepts, issues and key players * Tools and techniques in tourism planning and management: education, regulation and information technology * The future of tourism planning and management: issues of sustainability and the future Up-to-date, international case studies are used, for example the impacts of 9/11 and terrorism in Bali, to illustrate and provide a real-life context for the theories discussed. Exercises are also included to consolidate learning.
