**Financial and Managerial Accounting** - Jan Williams 2002-06-01  
Clear. Accurate. Current. The new twelfth edition of Financial and Managerial Accounting: A Basis for Business Decisions unites this texts long-running standard of excellence with a thorough revision reflecting contemporary concepts and issues in accounting. The

managerial accounting section has been expanded making this book appropriate for the 50/50 split accounting principles courses that employ a corporate approach. The hallmarks of this text continue to be exceptional balance between the preparer and user points of view, excellent real-world examples that do not distract students from the text narrative, and clear writing style. This is a reflection of the authors and their well-known dedication to accounting education.

*Accounting* - R. F. Meigs 1990-02

*Air-cooled Heat Exchangers and Cooling Towers*  
- Detlev G. Kröger 2004

This new text represents the most detailed and comprehensive book presenting modern practice

and theory relevant to the thermal-flow performance evaluation, design, and optimization of air-cooled heat exchangers and cooling towers. Kroger provides modern analytical and empirical tools used to evaluate the thermal-flow performance and design of air-cooled heat exchangers and cooling towers. He also covers how to prepare improved specifications and evaluate more critical bids with respect to thermal performance of new cooling systems. Further, Kroger explores improvement possibilities with respect to retrofits of existing cooling units as well as possible impacts of plant operations and environmental influences.
