Ralph Compton Shadow of the Gun - Ralph Compton
2008-02-05

A lawless town lives in the shadow of fear in this western in Ralph Compton's USA Today bestselling series. Tam Elliot founded Eden Creek to be a utopia of peace and prosperity. The town achieved neither, and in despair Elliot took his own life. His daughter Allison rechristened the town Suicide, blaming its folks for its failure. From her hillside house, she collects property dues from the lost souls unfortunate enough to still reside there—and punishes anyone attempting to leave. John McBride came west to start a new life, only to find himself saddled with the moniker “Tenderfoot Kid” after a single gunfight. He purchased a restaurant in Suicide hoping to put his past behind him, but with marauding Apaches, vicious outlaws, and rising tensions between the townsfolk and Allison Elliot, the town is a powder keg waiting to explode—and McBride’s presence just may be enough to light the fuse... Livestock, Dead Stock -

Seymour Grufferman 2020-09
A disgruntled British veterinary technician has access to a large repository of animal diseases at Britain's main veterinary laboratory. To exact revenge for his mistreatment, he steals samples of highly infectious agents for animal diseases and sells them to al Qaeda. Ayman al Zawahiri, the head of al Qaeda, decides to use the agents to mount a bioterrorism attack on the US. He first does a trial run with the causative agent for mad cow disease to check whether it would work. The agent is sprinkled on restaurant food and causes four cases of a horrific disease, Creutzfeldt-Jakob disease (CJD) which is also caused by the mad cow disease agent. Al Zawahiri then decides to use all the infectious material he bought to attack US farm

animal production. Winston Sage, a retired epidemiologist who had previously helped the FBI interdict a terrorist attempt to poison US food supplies, is invited to help investigate the four cases of CJD. While the investigation is flubbed and going nowhere, the terrorists introduce foot and mouth disease, Rinderpest, swine flu and Newcastle disease into US herds and flocks via placing the infectious agents into feed supplies. These are highly contagious and deadly diseases of livestock. The terrorists also spread a fungal disease of wheat by aerial spraying of fields with fungal agents. Devastating economic damage is inflicted on US agriculture, to the tune of billions of dollars of losses. As a result, no one will buy US meat or wheat. It also leads to demonstrations and riots by alarmed citizens. Sage is left furious about the incompetence of the CIA and FBI and the ruthlessness of al Qaeda. He is invited to a meeting with the US President and recommends a complete

overhaul of intelligence activities, with which the President agrees..
