**Textuality and Knowledge** - Peter Shillingsburg 2017-06-01

In literary investigation all evidence is textual, dependent on preservation in material copies. Copies, however, are vulnerable to inadvertent and purposeful change. In this volume, Peter Shillingsburg explores the implications of this central concept of textual scholarship. Through thirteen essays, Shillingsburg argues that literary study depends on documents, the preservation of works, and textual replication, and he traces how this proposition affects understanding. He explains the consequences of textual knowledge (and ignorance) in teaching, reading, and research—and in the generous impulses behind the digitization of cultural documents. He also examines the ways in which facile assumptions about a text can lead one astray, discusses how differing international and cultural understandings of the importance of documents and their preservation shape both knowledge about and replication of works, and assesses the dissemination of information in the context of ethics and social justice. In bringing these wide-ranging pieces together, Shillingsburg reveals how and why meaning changes with each successive rendering of a work, the value in viewing each subsequent copy of a text as an original entity, and the relationship between textuality and knowledge. Featuring case studies throughout, this erudite collection distills decades of Shillingsburg's thought on literary history and criticism and appraises the place of textual studies and scholarly editing today.

[Early Printed Narrative Literature in Western Europe](#) - Bart Besamusca 2019-11-05

The essays in this volume are concerned with early printed narrative texts in Western Europe. The aim of this book is to consider to what extent the shift from hand-written to printed books left its mark on narrative literature in a number of vernacular languages. Did the advent of printing bring about changes in the corpus of narrative texts when compared with the corpus extant in manuscript copies? Did narrative texts that already existed in manuscript form undergo significant modifications when they began to be printed? How did this crucial media development affect the nature of these narratives? Which strategies did early printers develop to make their texts commercially attractive? Which social classes were the target audiences for their editions? Around half of the articles focus on developments in the history of early printed narrative texts, others discuss publication strategies. This book provides an impetus for cross-linguistic research. It invites scholars from various disciplines to get involved in an international conversation about fifteenth- and sixteenth-century narrative literature.

[Beautiful Mornin'](#) - Ethan Mordden 1999-10-07

"Music and girls are the soul of musical comedy," one critic wrote, early

in the 1940s. But this was the age that wanted more than melody and kickline from its musical shows. The form had been running on empty for too long, as a formula for the assembly of spare parts--star comics, generic love songs, rumba dancers, Ethel Merman. If Rodgers and Hammerstein hadn't existed, Broadway would have had to invent them; and Oklahoma! and Carousel came along just in time to announce the New Formula for Writing Musicals: Don't have a formula. Instead, start with strong characters and atmosphere: Oklahoma!'s murderous romantic triangle set against a frontier society that has to learn what democracy is in order to deserve it; or Carousel's dysfunctional family seen in the context of class and gender war. With the vitality and occasionally outrageous humor that Ethan Mordden's readers take for granted, the author ranges through the decade's classics--Pal Joey, Lady in the Dark, On the Town, Annie Get Your Gun, Phinias's Rainbow, Brigadoon, Kiss Me, Kate, South Pacific. He also covers illuminating trivia--the spy thriller The Lady Comes Across, whose star got so into her role that she suffered paranoid hallucinations and had to be hospitalized; the smutty Follow the Girls, damned as "burlesque with a playbill" yet closing as the longest-run musical in Broadway history; Lute Song, in which Mary Martin and Nancy Reagan were Chinese; and the first "concept" musicals, Allegro and Love Life. Amid the fun, something revolutionary occurs. The 1920s created the musical and the 1930s gave it politics. In the 1940s, it found its soul.

**The Oxford Illustrated History of the Book** - James Raven 2020-07-31

In 14 original essays, The Oxford Illustrated History of the Book reveals the history of books in all their various forms, from the ancient world to the digital present. Leading international scholars offer an original and richly illustrated narrative that is global in scope. The history of the book is the history of millions of written, printed, and illustrated texts, their manufacture, distribution, and reception. Here are different types of production, from clay tablets to scrolls, from inscribed codices to printed books, pamphlets, magazines, and newspapers, from written parchment to digital texts. The history of the book is a history of different methods of circulation and dissemination, all dependent on innovations in transport, from coastal and transoceanic shipping to roads, trains, planes and the internet. It is a history of different modes of reading and reception, from learned debate and individual study to public instruction and entertainment. It is a history of manufacture, craftsmanship, dissemination, reading and debate. Yet the history of books is not simply a question of material form, nor indeed of the history of reading and reception. The larger question is of the effect of textual production, distribution and reception - of how books themselves made history. To this end, each chapter of this volume, succinctly bounded by period and geography, offers incisive and stimulating insights into the relationship between books and the story of their times.

**Reconstructing American Historical Cinema** - J.E. Smyth 2006-10-27

In Reconstructing American Historical Cinema: From Cimarron to Citizen Kane, J. E. Smyth dramatically departs from the traditional understanding of the relationship between film and history. By looking at production records, scripts, and contemporary reviews, Smyth argues that certain classical Hollywood filmmakers were actively engaged in a self-conscious and often critical filmic writing of national history. Her volume is a major reassessment of American historiography and cinematic historians from the advent of sound to the beginning of wartime film production in 1942. Focusing on key films such as Cimarron (1931), The Public Enemy (1931), Scarface (1932), Ramona (1936), A Star Is Born (1937), Jezebel (1938), Young Mr. Lincoln (1939), Gone with the Wind (1939), Stagecoach (1939), and Citizen Kane (1941), Smyth explores historical cinema's connections to popular and academic historiography, historical fiction, and journalism, providing a rich context for the industry's commitment to American history. Rather than emphasizing the divide between American historical cinema and historical writing, Smyth explores the continuities between Hollywood films and history written during the first four decades of the twentieth century, from Carl Becker's famous "Everyman His Own Historian" to Howard Hughes's Scarface to Margaret Mitchell and David O. Selznick's Gone with the Wind. Hollywood's popular and often controversial cycle of historical films from 1931 to 1942 confronted issues as diverse as frontier racism and women's experiences in the nineteenth-century South, the decline of American society following the First World War, the rise of Al Capone, and the tragic history of Hollywood's silent era. Looking at rarely discussed archival material, Smyth focuses on classical Hollywood filmmakers' adaptation and scripting of traditional historical discourse and their critical revision of nineteenth- and twentieth-century American history. Reconstructing American Historical Cinema uncovers Hollywood's diverse and conflicted attitudes toward American history. This text is a fundamental challenge the prevailing scholarship in film, history, and cultural studies.

The Culture of Print - Roger Chartier 2014-07-14

The leading historians who are the authors of this work offer a highly original account of one of the most important transformations in Western culture: the change brought about by the discovery and development of printing in Europe. Focusing primarily on printed matter other than books, The Culture of Print emphasizes the specific and local contexts in which printed materials, such as broadsheets, flysheets, and posters, were used in modern Europe. The authors show that festive, ritual, cultic, civic, and pedagogic uses of print were social activities that involved deciphering texts in a collective way, with those who knew how to read leading those who did not. Only gradually did these collective forms of appropriation give way to a practice of reading--privately, silently, using the eyes alone--that has become common today. This wide-ranging work opens up new historical and methodological perspectives

and will become a focal point of debate for historians and sociologists interested in the cultural transformations that accompanied the rise of modern societies. Originally published in 1989. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. **The Reluctant Film Art of Woody Allen** - Peter J. Bailey 2016-05-27

For five decades, no American filmmaker has been as prolific—or as paradoxical—as Woody Allen. From *Play It Again, Sam* (1972) to *Midnight in Paris* (2011) and *Blue Jasmine* (2013), Allen has produced an average of one film a year; yet in many of these movies Allen reveals a progressively skeptical attitude toward both the value of art and the cultural contributions of artists. In this second edition Peter J. Bailey extends his classic study to consider Allen's work during the twenty-first century. He illuminates how the director's decision to leave New York to shoot in European cities such as London, Paris, Rome, and Barcelona has affected his craft. He also explores Allen's shift toward younger actors and interprets the evolving critical reaction to his films—authoritatively demonstrating why the director's lifelong project of moviemaking remains endlessly deserving of careful attention.
