Powder Days Heather Hansman 2021-11-09 *An Outside Magazine Book Club Pick* "A sparkling account."—Wall Street Journal An electrifying adventure into the rich history of skiing and the modern heart of ski-bum culture, from one of America's most preeminent ski journalists The story of skiing is, in many ways, the story of America itself. Blossoming from the Tenth Mountain Division in World War II, the sport took hold across the country, driven by adventurers seeking the rush of freedom that only cold mountain air could provide. As skiing gained in popularity, mom-and-pop backcountry hills gave way to groomed trails and eventually the megaresorts of today. Along the way, the pioneers and diehards—the ski bums—remained the beating heart of the scene. Veteran ski journalist and former ski bum Heather Hansman takes readers on an exhilarating journey into the hidden history of American skiing, offering a glimpse into an underexplored subculture from the perspective of a true insider. Hopping from Vermont to Colorado, Montana to West Virginia, Hansman profiles the people who have built their lives around a cold-weather obsession. Along the

way she reckons with skiing's problematic elements and investigates how the sport is evolving in the face of the existential threat of climate change.

New Netherland Roots Gwenn F. Epperson 1994
The purpose of this book is to show the researcher how to trace a 17th-century New Netherland ancestor back to his place of origin in Europe. Mrs. Epperson demonstrates that without leaving the United States, and without speaking or reading a foreign language, the researcher, in using such records as exist at the LDS Family History Library and family history centers throughout the United States, can successfully trace his New Netherland ancestry all on his own.

Unthink Erik Wahl 2013 Shares advice on how to rise above daily routines to apply creativity in all aspects of life, building on a perspective that art is reflected by the effects of one's ideas and can inspire both personal and professional goals.

I'm Just a Person Tig Notaro 2016-06-14 Star of HBO Max's "Tig Notaro: Drawn," "Army of the Dead," "One Mississippi" and "Instant Family." As well as the host of the podcasts "Don't Ask Tig" and "Tig and Cheryl: True Story" with Cheryl Hines. One of America's most original comedic voices delivers a darkly funny, wryly observed, and emotionally raw account of her year of death, cancer, and epiphany. In the span of four months in 2012, Tig Notaro was hospitalized for a debilitating intestinal disease called C. diff, her mother unexpectedly died, she went through a breakup, and then she was diagnosed with bilateral breast cancer. Hit with this devastating barrage, Tig took her grief onstage. Days after receiving her cancer diagnosis, she broke new comedic ground, opening an unvarnished set with the words: "Good evening. Hello. I have cancer. How are you? Hi, how are you? Is everybody having a good time? I have cancer." The set went viral instantly and was ultimately released as Tig's sophomore album, *Live*, which sold one hundred thousand units in just six weeks and was later nominated for a Grammy. Now, the wildly popular star takes stock of that no good, very bad year—a difficult yet astonishing period

in which tragedy turned into absurdity and despair transformed into joy. An inspired combination of the deadpan silliness of her comedy and the open-hearted vulnerability that has emerged in the wake of that dire time, *I'm Just a Person* is a moving and often hilarious look at this very brave, very funny woman's journey into the darkness and her thrilling return from it.

Margot Lewis is a teacher at an exclusive high school in the English university town of Cambridge. In her spare time, she writes an advice column, "Dear Amy", for the local newspaper. When one of Margot's students, fifteen-year-old Katie, disappears, the school and the town fear the worst. And then Margot gets a "Dear Amy" letter unlike any of the ones she's received before. It's a desperate plea for rescue from a girl who says she is being held captive and in terrible danger—a girl called Bethan Avery, who was abducted from the local area twenty years ago...and never found. The letter matches a sample of Bethan's handwriting that the police have kept on file since she vanished, and this shocking development in an infamous cold case catches the attention of criminologist Martin Forrester, who has been trying to find out what happened to her all those years ago. Spurred on by her concern for both Katie and the mysterious Bethan, Margot sets out—with Martin's help—to discover if the two cases are connected. But then Margot herself becomes a target...

The Spark and the Grind Erik Wahl 2017-03-07 We've been conditioned to think about creative genius as a dichotomy: dreamers versus doers, creativity versus discipline, the spark versus the grind. But what if we're wrong? What if it's the spark and the grind? We love people whose creative genius arrives in sudden sparks of inspiration. Think of Archimedes in his bathtub or Newton under his apple tree. But we also admire people who work incredibly hard and long for their creative breakthroughs. Think of Edison in his lab, grinding through hundreds of failed variations on the lightbulb. We remember his words in tough times: "Genius is 1 percent inspiration, 99 percent perspiration." Now Erik Wahl, a visual artist, speaker, and entrepreneur, helps us unite the yin and yang of creativity—the dynamic new ideas with the dogged effort. He shows why we won't get far if we rely on the spark without the grind, or the grind without the spark. What the world really needs are the creators who can hold the two in balance. Fortunately, it's possible to get good at both, as Wahl knows from experience. After his corporate career suddenly ended, he pursued a spark—to paint photorealistic portraits—and ground it out until he got good enough to make very good art

very quickly. That's the basis of his riveting live shows, which have captivated skeptical audiences who never expected to be inspired by art—and taught them to embrace creativity in a whole new way. This book offers surprising insights and practical advice about how to fan the sparks and make the grind more productive. Wahl deftly synthesizes the wisdom of other artists, philosophers, scientists, and business visionaries throughout history, along with his own views. Here's how he sums up his approach: The world needs people who enjoy swimming in ideas until they discover a great one. The world also needs doers who have a gift for activation, a.k.a. "getting s*** done." But the most potent individual creators in any industry or environment have learned how to be both. They've learned how to spark their grind and they've learned how to grind their sparks. As a result, they not only make things happen, they make great things. If you want to ensure constant creativity in your life and produce your most innovative work—this is your guide.

Sydney's Martin Place Judith O'Callaghan 2016-11-23 Martin Place is one of Sydney's iconic urban places. Since the 1890s it has fulfilled a vital role as a significant public space at the centre of Australia's most populous city; in the heart of the central business district, its powerful corporate presence now defines a globally connected city. It is a place of varied moods and attributes: vista and fine relief, boldness and intimacy, new and old, repose and dynamism. From the beginning, its physical form has framed a people place, the character of which is ever-changing through everyday use and activity as well as moments of commemoration, celebration and protest. This collection captures Martin Place from all angles—its architectural and social history, its changing landscape, and its various economic and cultural functions—along with the people and organisations that have made it their own. 'This book describes the history of the creation and evolution of Martin Place as a vital part of our civic life - in times of war, at times of celebration and as a heart of our city's banking and finance industry. The ever-unfolding changes to the fabric of Martin Place and the imposing and stately buildings that flank it are a testament to how our constantly changing city is ever-

evolving to adapt to and to grasp the potential of an ever-changing future.' - Lucy Hughes Turnbull AO

Autonomy, Mastery and Purpose in the Avalanche Patch Lee Thompson 2015-10 What are our survival odds in avalanche country? Author Bruce Kay explores this puzzle in *Autonomy, Mastery and Purpose*. Drawing from the experiences of his peers and his own 35 years as a climber, skier and avalanche professional, Kay explains why avalanche country demands a unique mindset of managing risk by consideration of the unknown as much as the known. He explores related topics, including: - The Siren Song of Culture - Intuition and Bias - what is the difference? - Optimism and Luck - do we roll the dice or calculate risk? - The Expert Illusion - Strategic Mindset Using the work of Ian McCammon, Gary Klein and the Nobel Prize winning Kahnemen, Kay shows how the avalanche problem is nearly perfectly designed to produce errors in judgement, yet still provide opportunity for solution. This is brought to life using case studies and adrenaline - pumping stories from fellow professionals and recreationists. He warns that his book may at times "demand a bit more of the reader than the average ski video," but if truly interested in surviving to ski another day, this book is for you.

Our Homesick Songs Emma Hooper 2018-08-14 From Emma Hooper, acclaimed author of *Etta and Otto* and *Russell and James*, a *People* magazine "Pick of the Week," comes a "haunting fable about the transformative power of hope" (Booklist, starred review) in a charming and mystical story of a family on the edge of extinction. The Connor family is one of the few that is still left in their idyllic fishing village, Big Running; after the fish mysteriously disappeared, most families had no choice but to relocate and find work elsewhere. Aidan and Martha Connor now spend alternate months of the year working at an energy site up north to support their children, Cora and Finn. But soon the family fears they'll have to leave Big Running for good. And as the months go on, plagued by romantic temptations new and old, the emotional distance between the once blissful Aidan and Martha only widens. Between his accordion lessons and

reading up on Big Running's local flora and fauna, eleven-year-old Finn Connor develops an obsession with solving the mystery of the missing fish. Aided by his reclusive music instructor Mrs. Callaghan, Finn thinks he may have discovered a way to find the fish, and in turn, save the only home he's ever known. While Finn schemes, his sister Cora spends her days decorating the abandoned houses in Big Running with global flair—the baker's home becomes Italy; the mailman's, Britain. But it's clear she's desperate for a bigger life beyond the shores of her small town. As the streets of Big Running continue to empty Cora takes matters—and her family's shared destinies—into her own hands. In *Our Homesick Songs*, Emma Hooper paints a gorgeous portrait of the Connor family, brilliantly weaving together four different stories and two generations of Connors, full of wonder and hope. Told in Hooper's signature ethereal style, "this delicate elegy for a dying way of life crescendos into a love song binding family members across the waters" (Kirkus Reviews).

The Political Economy of Conflict and Violence against Women Kumudini Samuel 2019-08-15 *The Political Economy of Conflict and Violence against Women* shows how political, economic, social and ideological processes intersect to shape conflict related gender-based violence against women. Through feminist interrogations of the politics of economies, struggles for political power and the gender order, this collection reveals how sexual orders and regimes are linked to spaces of production. Crucially it argues that these spaces are themselves firmly anchored in overlapping patriarchies which are sustained and reproduced during and after war through violence that is physical as well as structural. Through an analysis of legal regimes and structures of social arrangements, this book frames militarization as a political economic dynamic, developing a radical critique of liberal peace building and

peace making that does not challenge patriarchy, or modes of production and accumulation.

Using Science to Improve the BLM Wild Horse and Burro Program Committee to Review the Bureau of Land Management Wild Horse and Burro Management Program 2013-09-18 *Using Science to Improve the BLM Wild Horse and Burro Program: A Way Forward* reviews the science that underpins the Bureau of Land Management's oversight of free-ranging horses and burros on federal public lands in the western United States, concluding that constructive changes could be implemented. The Wild Horse and Burro Program has not used scientifically rigorous methods to estimate the population sizes of horses and burros, to model the effects of management actions on the animals, or to assess the availability and use of forage on rangelands. Evidence suggests that horse populations are growing by 15 to 20 percent each year, a level that is unsustainable for maintaining healthy horse populations as well as healthy ecosystems. Promising fertility-control methods are available to help limit this population growth, however. In addition, science-based methods exist for improving population estimates, predicting the effects of management practices in order to maintain genetically diverse, healthy populations, and estimating the productivity of rangelands. Greater transparency in how science-based methods are used to inform management decisions may help increase public confidence in the Wild Horse and Burro Program.

105 Hikes in and Around Southwestern British Columbia Stephen Hui 2018-05-22 The all-new, expanded follow-up to southwestern British Columbia's best-selling hiking guidebook—now featuring trails on the islands and northern Washington. For nearly fifty years, David and Mary Macaree's iconic 103 Hikes in Southwestern British Columbia has been the province's most popular and most trusted hiking guide, with more than 100,000 copies sold to date. Author Stephen Hui carries on the Macarees' legacy in 105 Hikes in and around Southwestern British Columbia—an all-new, expanded follow-up inspired by their beloved classic. But he also includes all-new features such as an at-a-glance summary of all the hikes in the book; tips for hiking safely and ethically; clear, topographical color maps; a rating system for hike quality and difficulty; Indigenous place names where appropriate; and shorter or longer options for every outing.

Upper Hudson Valley Beer Craig Gravina 2014-08-12 The Upper Hudson Valley has a long and full-bodied brewing tradition. Arriving in the 1600s, the Dutch established the area as a brewing center, a trend that continued well into the eighteenth century despite two devastating wars. The Erie Canal helped develop Albany into a beer capital of North America—"Albany Ale" was exported across America and around the world. Upper Hudson Valley breweries continued to thrive until Prohibition, and some, like Beverwyck and Stanton, survived the dark years to revive the area's brewing tradition. Since the 1980s, there has been a renaissance in Upper Hudson Valley craft brewing, including Newman's, C.H. Evans, Shmaltz and Chatham Brewing. Beer scholars Craig Gravina and Alan McLeod explore the sudsy story of Upper Hudson Valley beer.

Scottish Genealogy David Dobson 2021-03-12 This work identifies the major sources and repositories for those just getting started on their research, and it also focuses on the other, less commonly used, sources that exist, which will allow more advanced researchers to put the basic facts they have gathered into context. With an emphasis on publications, manuscript sources, and archival records, David Dobson highlights ways to trace Scottish ancestors using alternative sources, primarily those covering the years between 1550 and 1850. For each research topic—including statutory registers, church records, tax records, sasines and land registers, court records, military and maritime sources,

burgh and estate records, emigration records, and much more—Mr. Dobson has compiled an extensive list of the publications and archival records that will enable family historians to advance their research. Another unique feature is the inclusion of numerous excerpts from publications and archival records, which will help lead researchers to the sources most applicable to their research.

Welcome to the Goddamn Ice Cube Blair Braverman 2016-07-05 A rich and revelatory memoir of a young woman reclaiming her courage in the stark landscapes of the north. By the time Blair Braverman was eighteen, she had left her home in California, moved to arctic Norway to learn to drive sled dogs, and found work as a tour guide on a glacier in Alaska. Determined to carve out a life as a “tough girl”—a young woman who confronts danger without apology—she slowly developed the strength and resilience the landscape demanded of her. By turns funny and sobering, bold and tender, *Welcome to the Goddamn Ice Cube* brilliantly recounts Braverman’s adventures in Norway and Alaska. Settling into her new surroundings, Braverman was often terrified that she would lose control of her dog team and crash her sled, or be attacked by a polar bear, or get lost on the tundra. Above all, she worried that, unlike the other, gutsier people alongside her, she wasn’t cut out for life on the frontier. But no matter how out of place she felt, one thing was clear: she was hooked on the North. On the brink of adulthood, Braverman was determined to prove that her fears did not define her—and so she resolved to embrace the wilderness and make it her own. Assured, honest, and lyrical, *Welcome to the Goddamn Ice Cube* paints a powerful portrait of self-reliance in the face of extraordinary circumstance. Braverman endures physical exhaustion, survives being buried alive in an ice cave, and drives her dogs through a whiteout blizzard to escape crooked police. Through it all, she grapples with love and violence—navigating a grievous relationship with a fellow musher, and adapting to the expectations of her Norwegian neighbors—as she negotiates the complex demands of being a young woman in a man’s land. Weaving fast-paced adventure writing and ethnographic

journalism with elegantly wrought reflections on identity, *Welcome to the Goddamn Ice Cube* captures the triumphs and the perils of Braverman’s journey to self-discovery and independence in a landscape that is as beautiful as it is unforgiving.

Hiking the West Coast of Vancouver Island Tim Leadem 2015-04-20 The rugged west coast of Vancouver Island offers some of the most spectacular and storied hiking in the Pacific Northwest. Home to the world-famous West Coast Trail, once a lifeline for marooned sailors and still among the most breath-taking yet demanding hikes on the continent, the island’s western shores also feature lesser-known coastal trails for all abilities. From the tidal pools and pocket beaches of the Juan de Fuca Marine Trail to the craggy surf-swept shores of Shushartie Bay and the North Coast Trail, the ten areas covered in this volume will give you a taste of the region’s best hiking terrain. This third, fully updated and expanded edition, delivers the detailed trail descriptions, insider tips and clear two-colour maps that hikers have come to rely on plus two entirely new sections on the wild and challenging North Coast Trail extension from Cape Scott and the remote and rarely visited Tatchu coastal hike on the Rugged Peninsula. Less-experienced hikers may enjoy the Juan de Fuca Trail, a southern extension of the West Coast Trail from Port Renfrew to Jordan River, or the trails through the stunning old-growth forest of Carmanah-Walbran Provincial Park. For day trippers, there’s the Wild Pacific Trail, a northern extension of the West Coast Trail that begins in Ucluelet and heads north over headlands and white sand beaches toward Long Beach and Tofino. And for those who prefer more remote hiking, the northern part of the island offers the rugged Nootka Trail, described by Backpacker magazine as a wild, historic and beautiful trail, or the boardwalk at Cape Scott, where black bears share the windswept beaches with kayakers and the ghosts of shipwrecked crews. From planning the trip, to getting to and from the trailheads, to choosing the most scenic campsites, this is an indispensable guide for the thousands of hikers who use the West Coast Trail each year and for those who will want to use its alternatives.

The Beadworkers Beth Piatote 2020-10-13 Beth Piatote's luminous debut collection opens with a feast, grounding its stories in the landscapes and lifeworlds of the Native Northwest, exploring the inventive and unforgettable pattern of Native American life in the contemporary world Told with humor, subtlety, and spareness, the mixed-genre works of Beth Piatote's first collection find unifying themes in the strength of kinship, the pulse of longing, and the language of return. A woman teaches her niece to make a pair of beaded earrings while ruminating on a fractured relationship. An eleven-year-old girl

narrates the unfolding of the Fish Wars in the 1960s as her family is propelled to its front lines. In 1890, as tensions escalate at Wounded Knee, two young men at college—one French and the other Lakota—each contemplate a death in the family. In the final, haunting piece, a Nez Perce-Cayuse family is torn apart as they debate the fate of ancestral remains in a moving revision of the Greek tragedy Antigone. Formally inventive and filled with vibrant characters, *The Beadworkers* draws on Indigenous aesthetics and forms to offer a powerful, sustaining vision of Native life.
