Black Deutschland Darryl Pinckney 2016-02-02 Jed--young, gay, black, out of rehab and out of prospects in his hometown of Chicago--flees to the city of his fantasies, a museum of modernism and decadence: Berlin. The paradise that tyranny created, the subsidized city isolated behind the Berlin Wall, is where he's chosen to become the figure that he so admires, the black American expatriate. Newly sober and nostalgic for the Weimar days of Isherwood and Auden, Jed arrives to chase boys and to escape from what it means to be a black male in America. But history, both personal and political, can't be avoided with time or distance. Whether it's the judgment of the cousin he grew up with and her husband's bourgeois German family, the lure of white wine in a down-and-out bar, a gang of racists looking for a brawl, or the ravaged visage of Rock Hudson flashing behind the face of every white boy he desperately longs for, the past never stays past even in faraway Berlin. In the age of Reagan and AIDS in a city on the verge of tearing down its walls, he clammers toward some semblance of adulthood amid the outcasts and expats, intellectuals and artists, queers and misfits. And, on occasion, the

city keeps its Isherwood promises and the boy he kisses, incredibly, kisses him back. An intoxicating, provocative novel of appetite, identity, and self-construction, Darryl Pinckney's *Black Deutschland* tells the story of an outsider, trapped between a painful past and a tenebrous future, in Europe's brightest and darkest city.

Human Landscapes in Classical Antiquity John Salmon 2013-02-01 Human Landscapes in Classical Antiquity shows how today's environmental and ecological concerns can help illuminate our study of the ancient world. The contributors consider how the Greeks and Romans perceived their natural world, and how their perceptions affected society. The effects of human settlement and cultivation on the landscape are considered, as well as the representation of landscape in Attic drama. Various aspects of farming, such as the use of terraces and the significance of olive growing are examined. The uncultivated landscape was also important: hunting was a key social ritual for Greek and hellenistic elites, and 'wild' places were not wastelands but played an essential economic role. The Romans' attempts to control their environment are analyzed. This volume shows how Greeks and Romans worked hand in hand with their natural environment and

not against it. It represents an outstanding collaboration between the disciplines of history and archaeology.

A bartender, as a rule, is a person who enjoys the company of others, endeavors to solve problems, listens to the woes of the world, sympathizes with the mistreated, laughs with the comedians, cheers up the down at heart, and generally controls the atmosphere at his or her bar. A bartender is the manager of moods, the master of mixology. Certain scenarios are played out over and over again in bars everywhere. The questions are basically the same; only the details vary: What's in a true Singapore Sling? How long has the Martini been around? What's the difference between a Fix and a Fizz?
