[Beyond and Before, Updated and Expanded Edition](#) Paul Hegarty 2021-12-02 The original edition of Beyond and Before extends an understanding of [progressive rock] by providing a fuller definition of what progressive rock is, was and can be. Called by Record Collector [the most accomplished critical overview yet] of progressive rock and one of their 2011 books of the year, Beyond

and Before moves away from the limited consensus that prog rock is exclusively English in origin and that it was destroyed by the advent of punk in 1976. Instead, by tracing its multiple origins and complex transitions, it argues for the integration of jazz and folk into progressive rock and the extension of prog in Kate Bush, Radiohead, Porcupine Tree and many more. This 10-year anniversary revised edition continues to further unpack definitions of progressive rock and includes a brand new chapter focusing on post-conceptual trends in the 2010s through to the contemporary moment. The new edition discusses the complex creativity of progressive metal and folk in greater depth, as well as new fusions of genre that move across global cultures and that rework the extended form and mission of progressive rock, including in recent pop concept albums. All chapters are revised to keep the process of rethinking progressive rock alive and vibrant as a hybrid, open form.

[Where The Water Meets The Sand](#) Tyra Manning 2016-05-10 IBPA Benjamin Franklin Award GOLD Winner in Autobiography & Memoir A remarkable story of love, loss, and hope Author Tyra Manning learned that her husband had been killed in the Vietnam War from her psychiatrist at the Menninger Clinic, where she had been hospitalized for clinical depression. After years of battling addiction and depression, and coping with the tragic loss of her father at a very early age, Tyra's worst fear had come true. Larry had been shot down over the Laotian jungle while flying a top-secret mission, just two weeks before their daughter's second birthday. In this beautifully written, poignant memoir, Tyra Manning recounts how she was able to persevere in the face of devastating loss. With courage, love, and determination, she overcame her grief and fulfilled promises she made to Larry before he left for Vietnam. She ultimately earned a doctorate of education from the University of Kansas and became one of the nation's top school superintendents. When Tyra received a call from the air force in 2006, she was able to keep one last promise to Larry. His remains had finally been excavated after thirty-five years, and she was able to honor his wish to be buried at Arlington National Cemetery. Where the Water Meets the Sand explores themes of loss, depression, addiction, courage, and love and offers hope to individuals and families who have also dealt with the loss of someone close to them.

The Matter of Black Lives Jelani Cobb 2021-09-28 A collection of The New Yorker's groundbreaking writing on race in America—including work by James Baldwin, Toni Morrison, Ta-Nehisi Coates, Hilton Als, Zadie Smith, and more—with a foreword by Jelani Cobb This anthology from the pages of the New Yorker provides a bold and complex portrait of Black life in America, told through stories of private triumphs and national tragedies, political vision and artistic inspiration. It reaches back across a century, with Rebecca West's classic account of a 1947 lynching trial and James Baldwin's "Letter from a Region in My Mind" (which later formed the basis of *The Fire Next Time*), and yet it also explores our current moment, from the classroom to the prison cell and the upheavals of what Jelani Cobb calls "the American Spring." Bringing together reporting, profiles, memoir, and criticism from writers such as Chimamanda Ngozi Adichie, Elizabeth Alexander, Hilton Als, Vinson Cunningham, Henry Louis Gates, Jr., Malcolm Gladwell, Jamaica Kincaid, Kelefa Sanneh, Doreen St. Félix, and others, the collection offers startling insights about this country's relationship with race. *The Matter of Black Lives* reveals the weight of a singular history, and challenges us to envision the future anew.

It pains her to remember the promise her future once held, that time before the disappearance of her first love, and the shattering revelation that derailed her life and divided her parents. Only when she finally learns to accept the violence of her beginning can she be open to life again, and maybe to a second chance at love. "With tenderness, but without blinking, Linda K. Sienkiewicz turns her eye on the predator-prey savannah of the young and still somehow hopeful." Jacquelyn Mitchard, author of the #1 NY Times Bestseller, *Deep End of the Ocean*

Big Data and Knowledge Sharing in Virtual Organizations Gyamfi, Albert 2019-01-25 Knowledge in its pure state is tacit in nature—difficult to formalize and communicate—but can be converted into codified form and shared through both social interactions and the use of IT-based applications and systems. Even though there seems to be considerable synergies between the resulting huge data and the convertible knowledge, there is still a debate on how the increasing amount of data captured by corporations could improve decision making and foster innovation

through effective knowledge-sharing practices. Big Data and Knowledge Sharing in Virtual Organizations provides innovative insights into the influence of big data analytics and artificial intelligence and the tools, methods, and techniques for knowledge-sharing processes in virtual organizations. The content within this publication examines cloud computing, machine learning, and knowledge sharing. It is designed for government officials and organizations, policymakers, academicians, researchers, technology developers, and students.

Kind of a Big Deal Shannon Hale 2020-08-25 "So many strange and wonderful things happen at every twist and turn, you'll be happy to wander with Josie . . . Each book she descends into seems to teach her something, and even if it's not obvious where the story is going, we're in it for the long haul." —NPR From Shannon Hale, bestselling author of *Austenland*, comes *Kind of a Big Deal*: a story that will suck you in—literally. There's nothing worse than peaking in high school. Nobody knows that better than Josie Pie. She was kind of a big deal—she dropped out of high school to be a star! But the bigger you are, the harder you fall. And Josie fell. Hard. Ouch. Broadway dream: dead. Meanwhile, her life keeps imploding. Best friend: distant. Boyfriend: busy. Mom: not playing with a full deck? Desperate to escape, Josie gets into reading. Literally. She reads a book and suddenly she's inside it. And with each book, she's a different character: a post-apocalyptic heroine, the lead in a YA rom-com, a 17th century wench in a corset. It's alarming. But also . . . kind of amazing? It's the perfect way to live out her fantasies. Book after book, Josie the failed star finds a new way to shine. But the longer she stays in a story, the harder it becomes to escape. Will Josie find a story so good that she just stays forever?

How Rights Went Wrong Jamal Greene 2021-03-16 An eminent constitutional scholar reveals how the explosion of rights is dividing America, and shows how we can build a better system of justice. You have the right to remain silent and the right to free speech. The right to worship, and to doubt. The right to be free from discrimination, and to hate. The right to marry and to divorce; to have children and to terminate a pregnancy. The right to life, and the right to own a gun. Rights are a sacred part of American identity. Yet they were an afterthought for the Framers, and early American courts rarely enforced them. Only as a result of the racial strife that exploded during the Civil War--and a series of resulting missteps by the Supreme Court--did rights gain such outsized power. The result is a system of legal absolutism that distorts our law and debases our politics. Over and over again, courts have treated rights conflicts as zero-sum games in which awarding rights to one side means denying rights to others. As eminent legal scholar Jamal Greene shows in *How Rights Went Wrong*, we need to recouple rights with justice--before they tear society apart.

Power, Construction and Meaning in Festivals Allan Jepson 2017-11-10 Whether through education, sport or festivity, events form the basis on which we attribute cultural meaning, significance and value to our lives. In this light, community events have the potential to create positive and negative social, cultural, economic and environmental impacts within the community

across a wide variety of genres and platforms. This book offers a deeper and more critical insight into the relationships, dynamics and planning processes of festivals and events and the impact this has upon authenticity, cultural consumption and the local communities they serve. It does so by looking at a range of key debates in power theory, event planning and design, event construction, experience and meaning, authenticity, sustainability, social inclusion, accessibility and sponsorship engagement. International case studies are embedded within the chapters, examining the role of stakeholders, local communities, organisers, local governments and infrastructure. This critical event studies text is interdisciplinary and will make valuable reading for students and researchers who are interested in the relationships and dynamics involved in the construction and planning of festivals and events, their immediate impact and their significance for the future.
