

University, RFID in the Supply Chain offers expert insight to help you decide whether, when, and how to use RFID technology to improve supply chain management processes. This informative volume provides a technological overview of RFID and explains the three architecture layers of the Electronic Product Code (EPC) global standards: identify, capture, and exchange. Building consensus for RFID adoption as well as security and privacy concerns are discussed. Real-world case studies illustrate the broad range of RFID applications across industries. A summary of RFID benefits and a look ahead at future implementations conclude this detailed resource. Coverage includes: Technical overview of RFID technology basics and systems components Advantages and limitations of RFID EPC global industry standards Operational, technical, and financial challenges in designing RFID applications RFID security and privacy concerns and solutions Business analytics and building the business case for RFID implementation Improved supply chain visibility Improved asset visibility and capital goods tracking Work-in-progress tracking--managing internal supply chains Library management systems Returnable asset tracking Features 32 case studies of successful RFID implementation at: Gillette * Charles Voegelé Group * Intermountain Healthcare * Walter Reed Army Medical Center * AeroScout * Erlangen University Hospital (Germany) * Royal Phillips Electronics * Pro-X Pharmaceuticals * Endware Defense Systems * National Library Board Singapore * Belgian University Library * Rewe Group * and many others

A Profile of the Electric Power Industry Charles E. Clark 2012-09-18 The electric power industry was traditionally a utility to which people gave little thought. It has stable prices, low business risk, and predictable emerging issues. But great change has shaken the industry—mergers have resulted in large and powerful companies. Natural gas prices have plummeted and gas is replacing coal as the basis for both electricity production and new capacity. Environmental regulation is in flux. And new technologies are transforming all parts of the industry's value chain. The high cost and new skills demanded by these technologies give rise to unprecedented financial risk. Addressing these new challenges and changes is the perfect book—A Profile of the Electric Power Industry: Facing the Challenges of the 21st Century. This book describes how the industry is organized, how it functions, with several unique aspects addressed in depth. These aspects include electricity demand, production, capacity expansion, generating technologies, fuels, regulation of both prices and environmental impacts, and retail products. Global climate change, energy efficiency, and the Smart Grid also receive extended coverage to help you understand the industry's future.

Retail Market Study Middle East, Asia & Pacific, and Africa 2014 Location Group Research 2014-02-27 For the third worldwide report of its kind, THE LOCATION GROUP again scouted all highly frequented retail locations and shopping malls worldwide. The previous reports reached 100'000 readers so far. The very positive feedback and numerous requests we received on the 2012 and 2013 reports prompted us to extend our study to cover over 800 high streets and 500 shopping malls.

Mobile Computing: Concepts, Methodologies, Tools, and Applications Taniar, David 2008-11-30 "This multiple-volume publication advances the emergent field of mobile computing offering research on approaches, observations and models pertaining to mobile devices and wireless communications from over 400 leading researchers"-- Provided by publisher.

Curbing Gridlock: Commissioned papers National Research Council (U.S.). Transportation Research Board. Committee for Study on Urban Transportation Congestion Pricing 1994 The Federal Highway Administration and Federal Transit Administration requested that the Transportation Research Board and the Commission on Behavioral and Social Sciences and Education of the National Research Council conduct a study of congestion pricing for congestion management. To conduct this study, the National Research Council established the Committee for Study on Urban Transportation Congestion Pricing. The committee's deliberations were supplemented by liaison representatives from several groups concerned about the benefits and costs of congestion pricing. After a review of the literature, and drawing from its expertise, the committee commissioned papers on a variety of topics. Volume 1 contains the committee's overview of the material contained in the commissioned papers, its conclusions, and its recommendations regarding the potential of congestion pricing, the need for evaluation of early demonstrations, and other research needs. Volume 2 provides a rich array of information about individual case studies from around the nation and thoughtful analyses by individual scholars about many of the critical issues surrounding congestion pricing., as revised by their authors after the symposium.

Handbook of Research in Mobile Business: Technical, Methodological, and Social Perspectives Unhelkar, Bhuvan 2006-04-30 "This reference book brings together various perspectives on the usage and application of mobile technologies and networks in global business"--Provided by publisher.

Security in Communication Networks Carlo Blundo 2005-02-02 This book constitutes the thoroughly refereed postproceedings of the 4th International Conference on Security in Communication Networks, SCN 2004, held in Amalfi, Italy in September 2004. The 25 revised full papers presented together with an invited paper were carefully selected during two rounds of reviewing and improvement. The papers are organized in topical sections on reduction of security and primitives, digital signature schemes, anonymity and privacy, authentication and identification, zero knowledge, public key cryptosystems, distributed cryptography, cryptanalysis of public key crypto systems, cryptanalysis, email security, and key distribution and feedback shift registers.

Retail Supply Chain Management, Second Edition James B. Ayers 2017-10-02 Retail supply chain consists of multiple segments from sales to distribution to finance. Retail manufacturers rely on a complicated web of suppliers. Customer demand and market competition today requires extreme efficiency from end to end. This book offers the retail supply chain executive with the tools needed for full strategic advantage. The new edition gives special attention to recent challenges, such as

vast technological change, higher levels of customer personalization, and more global supply chains.

Retail Crime, Security, and Loss Prevention Charles A. Sennewald 2011-08-29 Retail Crime, Security, and Loss Prevention is destined to become the "go to" source of crime- and loss prevention- related information in the retail industry. Written and edited by two nationally recognized retail security experts and enhanced with 63 contributions by others who contribute expertise in specialized areas, this book provides over 150 definitions of loss prevention terms, and discusses topics ranging from accident investigations, counterfeit currency, emergency planning, and workplace violence to vendor frauds. No other single work contains such a wealth of retail security information. The co-authors are Charles "Chuck" Sennewald, CSC, CPP former Director of Security at The Broadway Department Stores, a major division of Carter Hawley Hale Stores, Inc., founder of the IAPSC and author of numerous security industry books, and John Christman, CPP, former VP and Director of Security for Macy's West. They have put in one book a wealth of information, techniques, procedures and source material relative to retail crime and loss prevention which will prove an invaluable reference work for professionals at all levels within the industry. Tables, current industry figures, and statistics fully articulate the impact of loss prevention and theft in the retail setting Case examples from the authors' own experience illustrate real-world problems and connect theory to practice The most complete book available on retail security
