English as a Global Language David Crystal 2012-03-29 David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject

in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

Convincing Political Stakeholders - Successful Lobbying Through Process Competence in the Complex Decision-Making System of the European Union

Klemens Joos 2016-12-19 With the Treaty of Lisbon, which entered into force on 1 December 2009, the EU de facto became a state territory stretching from Portugal to Finland and from Ireland to Cyprus. The previous co-decision procedure was elevated to become the standard procedure ("ordinary legislative

procedure"). For the players on the "European Union stage" - the EU member states, EU regions, companies, associations and organisations - this leads to the problem that the outcome of decision-making processes has become largely incalculable. The author, Klemens Joos, points out that, at the latest since the Treaty of Lisbon, successful lobbying in the complex decision-making system of the EU is much more the result of the intermesh of content competence (the four "classic instruments" of lobbying: corporate representative of-fices, associations, public affairs agencies, law firms) with process structure competence (i.e. the EU-wide maintenance of the required spatial, personnel and organisational capacities as well as strong networks across institutions,

political groups and member states) on the part of an independent intermediary. One's own concerns are only likely to be successful if the in-terests of politicians and the general public are taken into consideration (change in perspec-tive to the common interest perspective). If this perspective change is successful, process support competence is crucial to achieving the objective.

**The Brain Boosting Diet** Norene Gilletz 2019-10-15 "Of all the things I've lost, I miss memory the most." -

-Mark Twain This book is designed to help people cope with memory loss through diet. Packed with over 200 recipes provided by well-respected Canadian cookbook author Norene Gilletz, each of which receives a solid commentary from Dr Edward Wein, Brain Boosting Diet provides both solid health and nutritional advice for people with memory loss, possible dementia, and even Alzheimer?s Disease (AD). Another important purpose of the book is to show the reader how to slow down potential cognitive decline. It is augmented with lots of unusual, but important Do You Know Health Facts: Our human hunter gatherer ancestors of 10,000 years ago had better nutrition than our farming ancestors until a couple of hundred years ago. This was because the former ate a variety of

foods they could find, rather than trying to exist on one or a few farmed crops which offered limited nutrition. Of the thousands of substances involved in human metabolism, about 50 need to be supplied by diet. The other compounds can be supplied by the metabolic processes of the body. The recipes are delicious, ranging from appetizers to main courses, from soups, to fish, to desserts. Find out about the 3 Deadly Sins: Too much food, Too much sugar and carbohydrates, and Too much processed foods. "If we don't use food as our medicine, we will use medicine as our food." -- Anon

**The Scandinavian Home** Niki Brantmark  
2017-03-07 Discover classic and contemporary Scandinavian style. Scandinavia is famous for its distinctive style: homes are pared-back and simple, and form and function are combined to create aesthetically pleasing and practical interiors. Scandinavians are inspired by light, having an abundance of it in summer but so little of it in winter, and house designs tend to maximize the amount of natural light that enters the home, and allow the inhabitants to make the most of outdoor life during the summer. Similarly, nature and the weather are

major influences: homes are made warm and cozy for the freezing winter monthsâ€”not just literally with log burners, but also through incorporating wood and natural materials.Â The Scandinavian Home showcases a wide range of these beautiful homes. The first chapter, City Dwellings, features sharp, modern apartments and smart townhouses.Â Country Homes shows the Scandinavian take on country style with laid-back, bohemian homes. Finally, the Summer and Winter Retreats include coastal cottages, an allotment house, and log cabins.

Kanada - der Westen Reiseführer  
Michael Müller Verlag Martin Pundt  
2019-06-10 Ebook zur 1. Auflage 2019  
Kanas Westen ist weit, wild und unberührt. Autor Martin Pundt hat den idealen Reisebegleiter verfasst für alle, die dessen grandiose Natur auf eigene Faust erleben wollen. Endlose Prärielandschaften und karge Wüsten, dichte Wälder und die schroffen Gipfel der Rocky Mountains, elegische Flüsse wie der Yukon, stille Seen und tosendes Meer mit rauen Küsten und vorgelagerten Inselwelten werden

stimmungsvoll beschrieben. Aber auch die sehenswerten Enklaven der modernen Zivilisation, allen voran die wuselige Metropole Vancouver, für viele der Ausgangspunkt zum großen Abenteuer Westkanada, kommen nicht zu kurz. Tourismusexperte Pundt berichtet kenntnisreich über seine zweite Heimat und hat dabei unzählige reisepraktische Tipps im Köcher. Und wessen Entdeckungsdrang damit noch nicht befriedigt ist, wird - über die Landesgrenzen hinweg - in die bizarre Gletscherwelt Alaskas geleitet.

**Optochemical Nanosensors** Andrea Cusano 2012-11-20 Nanosized sensors enable the study of chemical and biochemical processes at a level and in dimensions that may not have been envisioned some 20 years ago. Fueled by their inherent small size and the

unusual optical, magnetic, catalytic, and mechanical properties of nanoparticles, remarkable progress has been made in recent years in the development and utilization of nanosensors and optical nanotechnology will further widen the field. However, the design of new sensors requires new materials, new methods for their characterization, new optical sensing schemes, new approaches for creating nanosized structures, and new techniques for their interrogation in complex environments such as small living cells for studying biological signals or big public spaces for environmental monitoring . Optochemical Nanosensors covers the rapidly growing field of optical chemical nanosensing, a new and exciting area of research and

development within the large field of optical chemical sensing and biosensing. Its many applications, including the detection of bioterrorist threats, food security, virology, explosive detection and more, are covered in these self-contained yet interrelated chapters. The book reviews optochemical sensors, starting from the basics in optoelectronics and concluding with the presentation of diverse nanosensors. The authors offer insight into future trends in this growing field and present applications in the fields of medicine, security, and bioterrorism.
