*Beyond Memory* Max Mojapelo 2008 "South Africa possesses one of the richest popular music traditions in the world - from marabi to mbaqanga, from boeremusiek to bubblegum, from kwela to kwaito. Yet the risk that future generations of South Africans will not know their musical roots is very real. Of all the recordings made here since the 1930s, thousands have been lost for ever, for the powers-that-be never deemed them worthy of preservation. If one peruses the books that exist on South African popular music, one still finds that their authors have on occasion jumped to conclusions that were not as foregone as they had assumed. Yet the fault lies not with them, rather in the fact that there has been precious little documentation in South Africa of who played what, or who recorded what, with whom, and when. This is true of all music-making in this country, though it is most striking in the music of the black communities. *Beyond memory*: recording the history, moments and memories of

South African music is an invaluable publication because it offers a first-hand account of the South African music scene of the past decades from the pen of Max Thamagana Mojapelo, who was situated in the very thick of things, thanks to his job as a DJ at the South African Broadcasting Corporation. This book - astonishing for the breadth of its coverage - is based on his diaries, on interviews he conducted and on numerous other sources, and we find in it not only the well-known names of recent South African music but a countless host of others whose contribution must be recorded if we and future generations are to gain an accurate picture of South African music history of the late 20th and early 21st centuries"--Publisher's description.

Wolves Julie Argyle 2022-04-12  
An up-close look at the beautiful, yet fierce wolves of the greater Yellowstone area and their fight for survival. In *Wolves: Western Warriors*, the life of the powerful and majestic North American wolf, often considered to be vermin and dangerous, is presented, showing the struggle they have to simply survive in the wild and in a world where many people don't appreciate wolves and often set out to exterminate them. Argyle explores their behavior, their family dynamics, and what it means to be a wolf in the wilderness of the greater Yellowstone area through her stunning photography. She includes information about the reintroduction of wolves to Yellowstone and the ongoing struggle with keeping wolves listed as endangered species, while also offering her personal observations about the Wapiti Lake pack, among others, and several notable individual wolves. The strikingly beautiful images and the information and stories woven throughout the pages of the book showcase this frequently misunderstood, yet completely incredible species. "If you talk to the animals they will talk with you and you will know each other. If you do not talk to them you will not know then and what you do not know, you will not fear. What one fears, one destroys." — Chief Dan George, Tsleil-Waututh Nation, British Columbia, Canada.

*Crime Films* Thomas Leitch 2002-08-15 This book surveys the entire range of crime films, including important subgenres such as the gangster film, the private eye film, film noir, as well as the victim film, the erotic thriller, and the crime comedy. Focusing on ten films that span the range of the twentieth century, Thomas Leitch traces the transformation of the three leading figures that are common to all crime films: the criminal, the victim and the avenger. Analyzing how each of the subgenres establishes oppositions among its ritual antagonists, he shows how the distinctions among them become blurred throughout the course of the century. This blurring, Leitch maintains, reflects and fosters a deep social ambivalence towards crime and criminals, while the criminal, victim and avenger characters effectively map the shifting relations between subgenres, such as the erotic thriller and the police film, within the larger genre of crime film that informs them all.
