**The Secret of Death Valley** Mark Stephen Taylor 2014-10-18 Death Valley is a remote desert area located in eastern California. Situated within the Mojave Desert region, it features the lowest, driest, and hottest locations in all of North America. Badwater, a basin located within the Valley, is the specific point of the lowest elevation, at 282 feet below sea level. This area is only 84 miles east-south-east of Mt. Whitney, the highest point in the contiguous United States, with an elevation of 14,497 feet. One of the most interesting and challenging mysteries of Death Valley is the sliding rocks at 'Racetrack Playa' (a playa is a dry lake bed). These rocks can be found on the floor of the playa with long and distinct trails behind them. Yes, that's right—and no one knows for sure how these rocks move, and no one has ever reported actually seeing them move—but they do move great distances, some of them weighing several hundred pounds! Treasure hunter Rod Florea and tracker/cartographer Mitch Holland are about to confront this mystery—as they go in search of Spotted Elk, a Native American friend (The Secret of Monument Valley), who while on a personal quest has suddenly turned up missing in the far reaches of Death Valley—somewhere within the parched and desolate region known as Racetrack Playa...Are you ready? Hang on tight! The greatest thing about this particular author is that as you turn the pages, you will find yourself

right there in the middle of it all—living and breathing the story!

**Desolation Valley 4x4-Trail** Frank Linke 2017-11-18 Der Desolation Valley 4x4-Trail ist knapp 90 km. Der Trail startet und endet an der C39 und kann an einem Tag gefahren werden. Der Trail ist ideal, wenn Sie Twyfelfontein und die Orgelpfeifen besichtigt haben und auch das Damaraland jenseits der Tourismus-Hot-Spots sehen möchten. Er führt Sie entlang des Huab an eine der schönsten Stellen des gesamten Flusses. Sie können die Landschaft eines der großen Trockenflüsse Namibias bewundern ohne dass Sie schwierige Passagen durch das Flussbett fahren müssen. Der Trail ist als anspruchsvoll eingestuft, da - nicht nur in den kurzen Passagen, an denen Sie durch ein größeres Flussbett fahren müssen - er immer wieder durch sandige Stellen führt. Detaillierte Kenntnisse über das Offroad-Fahren sind während der Trockenzeit nicht nötig. Fahren Sie vorsichtig und langsam. Der Trail wird immer wieder von kleineren Trockenflüssen gequert, die Geröll mit sich führen und dieses in Ihrem Weg abgeladen haben. Da sich mehrere Lodges in der Nähe dieses Trails befinden, wird er oft von Fahrzeugen befahren. Die Folge ist eine streckenweise recht ausgeprägte Wellblechstruktur auf dem Track. Zum Teil haben sich bereits alternative Fahrspuren neben dem ursprünglichen Track gebildet. Der Trail führt Sie bis an den Rand der Huab-Sumpfe und läuft dann über einen Schlenker durch die Berge wieder auf den Weg zurück, den Sie gekommen sind. Fahren Sie nicht weiter in die Huab-Sumpfe, wenn Sie nicht über gute Offroad-Kenntnisse verfügen und mit einem zweiten Fahrzeug unterwegs sind. Diese Verlängerung des hier beschriebenen Trails - der 4x4-Trail durch die Huab-Sumpfe - ist deutlich schwerer zu fahren und wird von uns als gefährlich eingestuft! 4 Karten zeigen detailliert den Verlauf der Trails. Schwierige und gefährliche Passagen sind farbig markiert. Alle für den Trail nötigen GPS-Koordinaten finden Sie auf den Karten neben den gekennzeichneten Wegpunkten und in tabellarischer Form am Ende der Trail-Beschreibung. Damit Sie eine gute Vorstellung davon bekommen, was Sie auf den Trails erwartet, sind 40 Fotos im Text eingebunden.

**The Secret of Monument Valley** Mark Stephen Taylor 2010-06 \* The Secret of Monument Valley (Volume 2 in the Florea/Holland Mystery Series)... According to the so-called experts, in about 1450 AD, an exceedingly prosperous generation of Native Americans, known then as the Anasazi, vanished from their strongholds in the American Southwest-disappeared without so much as a trace. However, the Native Americans of the present day Navajo Nation dispute the theoretical findings of modern day archeologists and anthropologists. In fact, the Navajos claim that a sovereign remnant of the Anasazi currently dwells among them! It's time to tag along once again with treasure hunter, Rod Florea, and trail expert, Mitch Holland (Prequel: The Sun, The Glass, and the Leaning Rock), as they make a predestined journey into the desert southwest, most eager to solve this enduring mystery once and for all. Based on actual accounts from Native American residents of the Navajo Nation, award-winning author Mark Stephen Taylor thrusts his characters into the heart of this most interesting controversy. What they must endure is indeed most shocking. What they will find is most profoundly enlightening! Florea and Holland, accompanied by White Eagle, who claims to be the last surviving elder of the Anasazi, challenge the prevailing philosophies, following a five hundred year old trail from Chaco Canyon across the rugged, desert southwest into Monument Valley. It is along this trail and among the towering sentinels of the Navajo Tribal Park that the secret of Monument Valley and the trail of the Anasazi are revealed to the world. Are you ready to hike along? Watch out for the opposing forces, which stem from the very halls of government, and will resort even to kidnapping and murder to thwart the purpose of this monumental journey!

**Journeys North** Barney Scout Mann 2020-08-01 In Journeys North, legendary trail angel, thru hiker, and former PCTA board member Barney Scout Mann spins a compelling tale of six hikers on the Pacific Crest Trail in 2007 as they walk from Mexico to Canada. This ensemble story unfolds as these half-dozen hikers--including Barney and his wife, Sandy--trode north, slowly forming relationships and revealing their deepest secrets and aspirations. They face a once-in-a-generation drought and early severe winter storms that test their will in this bare-knuckled adventure. In fact, only a third of all the hikers who set out on the trail that year would finish. As the group approaches Canada, a storm rages. How will these very different hikers, ranging in age, gender, and background, respond to the hardship and suffering ahead of them? Can they all make the final 60-mile push through freezing temperatures, sleet, and snow, or will some reach their breaking point? Journeys North is a story of grit, compassion, and the relationships people forge when

they strive toward a common goal.
