Thanks A Thousand A. J. Jacobs 2018-11-13 The idea was deceptively simple: New York Times bestselling author A.J. Jacobs decided to thank every single person involved in producing his morning cup of coffee. The resulting journey takes him across the globe, transforms his life, and reveals secrets about how gratitude can make us all happier, more generous, and more connected. Author A.J. Jacobs discovers that his coffee—and every other item in our lives—would not be possible without hundreds of people we usually take for granted: farmers, chemists, artists, presidents, truckers, mechanics, biologists, miners, smugglers, and goatherds. By thanking these people face to face, Jacobs finds some much-needed brightness in his life. Gratitude does not come naturally to Jacobs—his disposition is more Larry David than Tom Hanks—but he sets off on the journey on a dare from his son. And by the end, it's clear to him that scientific research on gratitude is true. Gratitude's benefits are legion: It improves compassion, heals your body, and helps battle depression. Jacobs gleans wisdom from vivid characters all over the globe, including the Minnesota miners who extract the iron that makes the steel used in coffee roasters, to the Madison Avenue marketers who captured his wandering attention for a moment, to the farmers in Colombia. Along the way, Jacobs provides wonderful insights and useful tips, from how to focus on the hundreds of things that go right every day instead of the few that go wrong. And how our culture overemphasizes the individual over the team. And how to practice the art of "savoring meditation" and fall asleep at night. Thanks a Thousand is a reminder of the amazing interconnectedness of our world. It shows us how much we take for granted. It teaches us how gratitude can make our lives happier, kinder, and more impactful. And it will inspire us to follow our own "Gratitude Trails."

Two Planks and a Passion Roland Huntford 2013-01-31 Roland Huntford's brilliant history begins 20,000 years ago in the last ice age on the icy tundra of an unformed earth. Man is a travelling animal, and on these icy slopes skiing began as a means of survival. That it has developed into the leisure and sporting pursuit of choice by so much of the globe bears testament to its elemental appeal. In polar exploration, it has changed the course of history. Elsewhere, in war and peace, it has done so too. The origins of skiing are bound up in with the emergence of modern man and the world we live in today.

Powder Days Heather Hansman 2021-11-09 *An Outside Magazine Book Club Pick* "A sparkling account."—Wall Street Journal An electrifying adventure into the rich history of skiing and the modern heart of ski-bum culture, from one of America's most preeminent ski journalists The story of skiing is, in many ways, the story of America itself. Blossoming from the Tenth Mountain Division in World War II, the sport took hold across the country, driven by adventurers seeking the rush of freedom that only cold mountain air could provide. As skiing gained in popularity, mom-and-pop backcountry hills gave way to groomed trails and eventually the megaresorts of today. Along the way, the pioneers and diehards—the ski bums—remained the beating heart of the scene. Veteran ski journalist and former ski bum Heather Hansman takes readers on an exhilarating journey into the hidden history of American skiing, offering a glimpse into an underexplored subculture from the perspective of a true insider. Hopping from Vermont to Colorado, Montana to West Virginia, Hansman profiles the people who have built their lives around a cold-weather obsession. Along the way she reckons with skiing's problematic elements and investigates how the sport is evolving in the face of the existential threat of climate change.

Sociology David M. Newman 2020-01-08 In *Sociology: Exploring the Architecture of Everyday Life*, David Newman shows students how to see the "unfamiliar in the familiar"—to step back and see organization and predictability in their personal experiences. Through his approachable writing style and lively personal anecdotes, the author has maintained his goal from the first edition: to write a textbook that "reads like a real book." Many adopters of this book are fans of Peter Berger's classic works, which helped introduce the idea of "social constructionism" to sociology. Newman uses the metaphors of "architecture" and "construction," to help students understand that society is not something that exists "out there," independently of themselves; it is a human creation that is planned, maintained, or altered by individuals. Using vivid prose, current examples, and recent data, the Thirteenth Edition presents a unique and thought-provoking overview of how society is constructed and experienced. Instead of surveying every subfield in sociology, the more streamlined coverage (14 chapters) focuses on the individual and society, the construction of self and society, and social inequality in the context of social structures. Aspen and the American Dream Jenny Stuber 2021-03-23 How is it possible for a town to exist where the median household income is about \$73,000, but the median home price is about \$4,000,000? Boring into the "impossible" math of Aspen, Colorado, Stuber explores how middle-class people have found a way to live in this supergentrified town. Interviewing a range of residents, policymakers, and officials, Stuber shows that what resolves the math equation between incomes and home values in Aspen, Colorado--the X-factor that makes middle-class life possible--is the careful orchestration of diverse class interests within local politics and the community. She explores how this is achieved through a highly regulatory and extractive land use code that provides symbolic and material value to highly affluent investors and part-year residents, as well as less-affluent locals, many of whom benefit from an array of subsidies--including an extensive affordable housing program--that redistribute economic resources in ways that make it possible for middle-class residents to live there. Stuber further examines how Latinos, who provide much of the service work in Aspen and who tend to live outside the town, fit into the social geography of one of the most unequal places in the country. Overall, Stuber argues that the Aspen's ability to balance the interests of its diverse class constituencies is not a foregone conclusion; rather, it is the result of efforts by local stakeholders--citizens, government, developers, and vacationers--to preserve the town's unique feel and value, and "keep Aspen, Aspen" in all its complex dynamics.

Nepal Himalaya H. Tilman 2013-04-16 There can be no country so rich in mountains as Nepal. This narrow strip of territory, lying between Sikkim and Garhwal, occupies 500 miles of India's northern border; and since this border coincides roughly with the 1,500-mile-long Himalayan chain, it follows that approximately a third of this vast range lies within or upon the confines of Nepal. So starts this breathtaking account of mountaineering and exploring this isolated and awe-inspiring country by one of the most famous men in mountaineering. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic

All My Life for Sale John Freyer 2002-11-09 The classic American passion for the road meets the current obsession with internet consumption in one of the most original illustrated books to come along in years. One day, John Freyer decided to sell everything he owned on the internet. He invited his friends over to tag all the possessions in his apartment, and he systematically put them up for sale on eBay. An unopened box of taco shells, half a bottle of mouthwash, almost all of his clothes, his favorite records, his sideburns (in a plastic bag), his family's Christmas presents (not yet given), furniture: John didn't let sentiment or utility stand in his way. Soon his belongings were sold all over the world, with a bag of Porky's BBQ Pork Skins making its way to Japan, and a chair ending up in the Museum of Modern Art. With almost all the objects in his life now gone, he started the second phase of his journey: to go visit his one-time possessions in their new surroundings. All My Life for Sale is an extraordinary book that functions as an autobiography, a travel narrative, and a meditation on what the objects we surround ourselves with actually mean to us and what happens when we set them free. Designed by the author himself, it is visually striking, surprisingly moving, and will change the way you look at the things that surround you.

Fetch, Muse Rebecca Starks 2021-11-26 *Fetch, Muse* is Rebecca Starks's second full-length collection, with precisely crafted, moving poems that are by turns heartwarming and heartrending. Starks presents a powerful account of the integration of a dog with behavioral issues into a family. Along the way, with "memory burning [her] into brilliance," understanding deepens of the dog Kismet as an individual, of human beings' wilder inclinations, and of the nature of warmth given and received. This is a unique collection of longing and introspection, uncovering a closer sense of the life around us, our inner nature, our humanity. PRAISE FOR *FETCH, MUSE* This book shows that the range of feelings that goes into taking on and then giving up a dog is as deep and wide an emotional swath as any we experience as people, which is to say non-dogs. The insights, confusions, misgivings, wary moments, and entangled joys are all here along with a steady self-scrutiny. We forget, we let go, but we don't forget the deep tie between dogs and humans and how crucial yet fraught that tie is. *Fetch, Muse* offers poetry of a very high order to apprehend matters that are basic to our flawed, yearning humanity. – Baron Wormser, Maine Poet Laureate Emeritus, author of *Tom o' Vietnam* What brims from this elegant collection? A sorrow both compassionate and contemplative, a sorrow wise and deep. Here, Rebecca Starks gives us poems spoken in direct address to her rescued dog named Kismet. "Fetch, Muse," she says, commanding the dog to ". . . do the work / of memory, dropping life at my feet . . ." And Kismet obeys. In mostly subverted, non-traditional sonnets, Starks's poems retrieve from memory the story of a rescue that is fated to ultimately fail. Rich with allusion, her work—with its wit and insight and music—salvages for us the story of her relationship with a creature whose very name means fate. – Paulann Petersen, Oregon Poet Laureate Emerita, author of *Understory* *Fetch, Muse* is a book of real poems with a real subject, a subject which is difficult to tackle successfully, and Rebecca Starks achieves that success. The poems, mostly unrhymed

sonnets, muse on her wayward dog and on her family life. The dog is her true muse. There are many great lines I could quote, but here are two from the title sonnet that begins "Fetch, Muse, bring me back what I rejected," and ends with the memorable final line "your fetch as long as your leash pulls you up." Powerful. – Greg Delanty, Guggenheim Fellow, author of *No More Time* ABOUT THE AUTHOR: Rebecca Starks grew up in Louisville, Kentucky, and earned a BA in English from Yale University and a PhD in English from Stanford University. She works as a freelance editor and workshop leader. Her first book of poems, *Time Is Always Now*, was a finalist for the 2019 Able Muse Book Award. Her poems and short fiction have appeared in *Baltimore Review*, *Ocean State Review*, *Slice Literary*, *Crab Orchard Review*, *Tahoma Literary Review*, and elsewhere. Winner of Rattle's 2018 Neil Postman Award for Metaphor and past winner of Poetry Northwest's Richard Hugo Prize, she is the founding editor-in-chief of *Mud Season Review* and is a board member of *Sundog Poetry Center*. She lives with her family and two adopted dogs in a log cabin in the woods of Richmond, Vermont.

Trail to Gold U.S. Olympic Women Cross-Country Skiers 1972-2018 2021-11-15 Fifty-three American women have participated in cross-country skiing in the Winter Olympics between the years of 1972 and 2018. In 2018, forty-six years after the first team competed, Jessie Diggins and Kikkan Randall won Olympic gold in the Team Sprint, in Pyeongchang, South Korea, the first Olympic medal for U.S. women's cross-country skiing. Five decades of women skiers stood up and cheered, celebrating this long sought after achievement. This book shares the collective journey of these women Olympians, with the skiers themselves telling the story. Part I combines individual stories along a variety of themes, to collectively demonstrate the challenges of competing against the best in the world. In Part II, virtually every one of the fifty-three wrote her own profile to describe her skiing career and post-Olympic life. Photographs throughout put faces with the stories and add vibrancy to the narrative. The anecdotes in *Trail to Gold: The Journey of 53 Women Skiers*, paint the picture of women's cross-country skiing over 50 years--a fascinating history recorded in personal heartbreak and triumph and in fun vignettes from life on the trail.
