Guitar for Beginners - Guitar Head

It Took Me 3 Months to Play My First Song - But You'll Be Doing That in Less Than A Week. It wasn't because I was slow or bad at guitar. Neither was it because I practiced less. I was simply misguided - like every other person to ever pick up the guitar! I took the "traditional" method of learning where you learn all the chords and all the theory behind it before you get to the fun part. This also involves months of practice and

learning boring theory. This book is here to end that - to simplify things - to make things so simple that you'll be playing your first melody on day 1 and your first song within 7 days.

How can this book do that? You would have heard people say - "You need to learn theory to be a real guitarist" Well.....

Wrong! Not everyone needs to know theory - why do you need to learn all the boring theory if it's of no use to you? Why is this forced upon all guitarists?

This book cuts out all the cr*p and gives you a streamlined process of mastering guitar.

Even if you failed every exam at school and you have never picked up a single instrument in your life, you will be able to become a proficient guitar player without years and years of expensive guitar lessons.

With the right strategy, you will get addicted to your guitar and the songs you are able to play. How long will I have to practice? Now, I know you have other commitments in life and cannot spend 25 hours a day practicing guitar. No one wants to do that. This book has

been designed with exactly that in mind. It will give you goals for each of your 7 days with step by step instructions on what to play each day. You won't have to worry if you're practicing too less or too much - the book will tell you what you need to be accomplishing each day. Commit a few hours a day for 7 days and you'll make your friends and family jealous when you pull your guitar out. It doesn't matter if you just enter primary school or you are about to retire. This calculation applies to all 6.8 billion people between 6 and 80 years of age in this world. In *Guitar for Beginners*, you'll discover: A practical day-by-day guide to own yourself and your guitar in less than 7 days How you be your guitar teacher and progress into the league of the big players The chords that will allow you to play your favorite songs A beyond beginners' guide to prepare you for your musical journey Free audio tracks to help you with the charts Real photos to make sure you are not making any mistakes as

Wolfgang Muthspiel, Miles Okazaki, Sheryl Bailey, Rafiq Bhatia, and Ralph Towner—twenty-seven great guitarists in all. An enormous range of approaches and sounds exist in the modern guitar. The instrument can howl, scrape, scratch, scream, sing, pluck, and soothe. What stands out in this book is not so much the instrument itself, rather the wonderful and idiosyncratic personalities of these bold souls, their sometimes wild, often zigzagging, and ultimately profound journeys toward beauty, meaning, and excellence in their work. We find out that jazz icon Bill Frisell won a high school band contest playing R&B tunes, beating out future members of Earth Wind and Fire. We learn which of Nels Cline's compositions he wishes to have played at his funeral. Michael Gregory Jackson recounts painful episodes of racism as he stretched between the chasm of avant jazz, rock, and blues in the 1980s. Many more revelations, amusements, and

philosophies abound.

Parker is a wolf, a human-wolf hybrid to be precise. She is a young female alpha of the

great Onyx pack, a pack that currently rules over all of the other surrounding packs.

Parker is just fine living out her days normally with her two best human friends Harley and Ariel. They had become her pack. Secrets and hidden pasts come out. Much needed goodbyes are said. She falls for the unexpected and just as they are about to announce their relationship and take it to the next level things quickly go downhill. Lies take hold as one young alpha male decides to take things into his own hands when he doesn't get his way. Everything quickly spins even farther out of control. Parker's true love and mate are suddenly miles away, taken to the Island, lost forever unless she can break free and rescue him. It takes her on a long journey, one

where she meets some unexpected friends and Hunters who turn out to be completely different than what she had been taught as a young pup. With help from friends and family she will fight hard to break into the Island to free her love, but it's only the beginning of her fight to stay alive. When tragedy strikes, will Parker even want to continue on? Will someone pick her back up, or will she give up completely? Only she can decide. Excerpt: "That's usually the way love goes, Parker. One day you hate them and the next you can't figure out a single reason why you stayed away for so long in the first place." - Derek

this down." —Publishers Weekly, starred review "Newland's writing is in league with a host of SF subgenres, from pulpy space opera to N.K. Jemisin-style Afrofuturism to Jeff VanderMeer-esque eco-fiction. But his chief skill is weaving those tropes into stories that are both wildly speculative and on the news . . . Wide-ranging and deeply imaginative; Newland is equally at home in council flats and deep space." —Kirkus Reviews In his exquisite first collection of speculative fiction, Courttia Newland envisages an alternate future as lived by the African diaspora. Kill parties roam the streets of a post-apocalyptic world; a matriarchal race of mer creatures depends on interbreeding with mortals to survive; mysterious seeds appear in cities across the world, growing into the likeness of people in their vicinity. Through transfigured bodies and impossible encounters, Newland brings a sharp, fresh eye to age-old themes of the human capacity

for greed, ambition, and self-destruction, but ultimately of our strength and resilience.
