[Djinn](#) - Alain Robbe-Grillet 1982

"A haunting, disorienting, brilliantly constructed novel, Djinn is the story of a young man who joins a clandestine organization under the command of an alluring, androgynous American girl, Djinn. Having agreed to wear dark glasses and carry a cane like a blind man, he comes to realize, through bizarre encounters, recurring visual images, and fractured time sequences he experiences as part of his undisclosed mission, that he is, in a sense, helplessly blind. His search for the meaning of his mission and for possible clues to the identity of the mysterious Djinn, becomes a quest for his own identity in an ever-shifting time-space continuum. His growing obsession with solving the mystery becomes the reader's own until, through a surprising shift in narrative perspective, the reader too becomes lost in the dimension between past and future." -- Publisher's description

In this wide-ranging history of modern Britain, Eric Evans surveys every aspect of the period in which Britain was transformed into the world's first industrial power. By the end of the nineteenth century, Britain was still ruled by wealthy landowners, but the world over which they presided had been utterly transformed. It was an era of revolutionary change unparalleled in Britain - yet that change was achieved without political revolution. Ranging across the developing empire, and dealing with such central institutions as the church, education, health, finance and rural and urban life, *The Shaping of Modern Britain* provides an unparalleled account of Britain's rise to superpower status. Particular attention is given to the Great Reform Act of 1832, and the implications of the 1867 Reform Act are assessed. The book discusses: - the growing role of the central state in domestic policy making - the emergence of the Labour party - the Great Depression - the acquisition of a vast territorial empire Comprehensive, informed and engagingly written, *The Shaping of Modern Britain* will be an invaluable introduction for students of this key period of British history.

Fairyland: A Memoir of My Father - Alysia Abbott 2013-06-03

A beautiful, vibrant memoir about growing up motherless in 1970s and '80s San Francisco with an openly gay father. After his wife dies in a car accident, bisexual writer and activist Steve Abbott moves with his two-year-old daughter to San Francisco. There they discover a city in the midst of revolution, bustling with gay men in search of liberation—few of whom are raising a child. Steve throws himself into San Francisco's vibrant cultural scene. He takes Alysia to raucous parties, pushes her in front of the microphone at poetry readings, and introduces her to a world of artists, thinkers, and writers. But the pair live like nomads, moving from apartment to apartment, with a revolving cast of roommates and little structure. As a child Alysia views her father as a loving playmate who can transform the ordinary into magic, but as she gets older Alysia wants more than anything to fit in. The world, she learns, is hostile to difference. In Alysia's teens, Steve's friends—several of whom she has befriended—fall ill as AIDS starts its rampage through their community. While Alysia is studying in New York and then in France, her father tells her it's time to come home; he's sick with AIDS. Alysia must choose whether to take on the responsibility of caring for her father or continue the independent life she has worked so hard to create. Reconstructing their life together from a remarkable cache of her father's journals, letters, and writings, Alysia Abbott gives us an unforgettable portrait of a tumultuous, historic time in San Francisco as well as an exquisitely moving account of a father's legacy and a daughter's love.

Encyclopedia of French Film Directors - Philippe Rège 2009-12-11
Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi_re screened their works, the first public viewing of films anywhere. Early silent pioneers Georges Méliès, Alice Guy Blaché and others followed in the footsteps of the Lumi_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In Encyclopedia of French Film Directors, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age_Jean Renoir and René Clair_to French New Wave artists such as François Truffaut and Jean-Luc Godard.
