The ultimate reference book : the 5th updated edition of the famous "blue guide". Included : A DVD with new sequences completes each chapter! Epileptology changes. The syndromic approach is completed by an etiological approach, based on the major advances in genetics and functional genetics. New entities have found their place, and a purely descriptive, "electroclinical" approach is no longer adapted in many circumstances. The 5th edition of the Blue Guide includes the most recent advances. It was necessary to justify the physiological, epidemiologic, genetic and therapeutic approaches and to consider them in the light of the new classification efforts, which are still in the making. Nevertheless, the description of epileptic syndromes, both classical and recent, remains at the core of this book.

Midwinter Blood - Mons Kallentoft 2012-06-05

Meet police superintendent Malin Fors: Talented. Troubled. With a sixth sense for the truth. Join her on a manhunt that takes her to the darkest corners of the human heart in this chilling first novel from Scandinavian crime writer Mons Kallentoft. WHEN THE ICE MELTS, WHAT REMAINS? Thirty-four years old, blond, single, divorced with a teenage daughter, Fors is the most driven superintendent who has ever worked on the police force in her small, isolated town. And the most talented. In her job, she is constantly moving through the borderland between life and death. Her path in life is violent and hazardous. Linköping, Sweden, is surrounded by a landscape of plains and forests—a fault line on the edges of society where time seems to have stood still and where some people live entirely according to their own rules. In the early hours of a frigid night, during the coldest February anyone can remember, the bloody body of an obese man, stripped bare and horribly mutilated, is found hanging from a lone oak tree in the middle of a frozen, snow-covered, and windswept plain not far from town. The young superintendent Malin Fors is assigned to the case. Together with her colleagues from the Investigation Section of Linköping's Crime Unit, she must track down the identity of the man in the tree and the reason why he ended up there. And at the same time they must follow in the frigid wake of a killer who has just begun his work. It is a manhunt that will take Malin into the darkest corners of the human heart where the sins of the past—hidden away—all too often wreak havoc from one generation to the next.

Revisioning Red Riding Hood around the World - Sandra L. Beckett 2013-11-01

Across various time periods, audiences, aesthetics, and cultural landscapes, Little Red Riding Hood is a universal icon, and her story is one of the world's most retold tales. In *Revisioning Red Riding Hood Around the World: An Anthology of International Retellings*, Sandra L. Beckett presents over fifty notable modern retellings, only two of which have appeared previously in English. The tales include works published in twenty-four countries and sixteen languages, in texts that span more than a century, but with the majority written in the last fifty years. They include retellings for children, adolescents, and adults, as well as crossover works intended for an audience of all ages. The tales in this volume progress from works that recast the story of Little Red Riding

Hood from traditional perspectives through more playful versions to more unconventional approaches. Seven sections are arranged thematically: Cautionary Tales for Modern Riding Hoods, Contemporary Riding Hoods Come of Age, Playing with the Story of Red Riding Hood and the Wolf, Rehabilitating the Wolf, The Wolf's Story, The Wolf Within, and Running with the Wolves. Beckett provides an interpretative introduction to each text and insightful information on its author and/or illustrator. A variety of genres are represented, including fairy tale, short story, novella, novel, poetry, illustrated books, and picture books. More than 90 illustrations, both color plates and black-and-white images, reveal further narrative layers of meaning. The number and diversity of retellings in *Revisioning Red Riding Hood* demonstrate the tale's remarkable versatility and its exceptional status in the collective unconscious and in literary culture, even beyond the confines of the Western world. This unique anthology contributes to cross-cultural exchange and facilitates comparative study of the tale for readers interested in fairy-tale studies, cultural studies, and literary history.

[The Dragonheads](#) - Neda Miranda Blazevic-Krietzman 2008-06

The novel, *The Dragonheads*, features five adventurous, smart and fun sixth-graders who go on a quest to find the mysterious Magical Eggs and restore world harmony. They're from the land of Lamatia, which was ravaged by war when these orphans were six years old. Vidar, Ana, Zlatan, Tina and Yassen live in the Orange Home and School for Orphaned Children and play music in the Dragonheads band named after the Dragonhead flower. One winter day, the children came to the aid of an injured seagull. Five centuries earlier, this seagull was the King-guardian of the Twelve Magical Eggs whose beauty and power are responsible for the world's harmony. Since that time, the land has been ravaged by many fires, wars and earthquakes. Countless people and wild creatures, good and evil, have been searching for the Eggs all over Lamatia. The good ones want to re-establish the world's harmony, and the evil ones want to destroy the Eggs in order to create chaos on Earth. King Lucan chooses the Dragonheads to find the hidden Twelve Magical Eggs because of the children's goodness and desire to explore the world. In the first four months of their adventurous journey, the Dragonheads meet many good people, animals and mythical beings who are helping them to outsmart four evil Eggs hunters. Neda Miranda Blazevic conveys in her superb writing the excitement of a world traveler. I. Vidan, *World Literature Today*. an exceptional writer and professor. Regions of Sorrow - Susannah Young-ah Gottlieb 2003

W. H. Auden and Hannah Arendt belonged to a generation that experienced the catastrophic events of the mid-twentieth century, and they both sought to respond to the enormity of the novel phenomena they witnessed. *Regions of Sorrow* explores the remarkable affinity between their works. As incisive exponents and uncompromising proponents of the insuperable condition of plurality, Auden and Arendt give voice to an unexpected and inconspicuous messianism--a messianism in which contingency, frailty, and faultiness are neither rejected nor scorned but celebrated as the indispensable elements of what Auden calls "anxious hope." Beginning with an examination of Arendt's *Origins of Totalitarianism* and Auden's *Age of Anxiety*, which both conclude with meditations on Nazi terror, the author turns to an unprecedented presentation of Arendt's *Human Condition* in terms of Jewish-German messianism, and concludes with Auden's "In Praise of Limestone," which lays out the frail and faulty space in which messianism breaks free from apocalyptic forecasts.
